With my experience and with my desire to learn and exceed I believe I could be an asset to you. I grow from working close with other people but are capable to work on my own too. I am not afraid to explore unknown technical areas which I always try to get a big picture of.

experience

summary

I graduated with a master in 2008. I have mostly worked with GNU/Linux on embedded systems. I have worked on my own and in groups, I have learned to take responsibility, plan and structure my work, I have learned how to take a project from start to finish. I work best when pushed and when people put their confidence in me and my possibility to grow and learn.

work

2012–Now **KickAssCompany**   Lund, Sweden
Keywords: GNU/Linux, C, Bluetooth, RTOS
Developed spreadsheets for risk analysis on exotic derivatives on a wide array of commodities (ags, oils, precious and base metals), managed blotter and secondary trades on structured notes, liaised with Middle Office, Sales and Structuring for bookkeeping.
Detailed achievements:
- Learned how to make amazing coffee
- Finally determined the reason for PC LOAD LETTER:
    - Paper jam
    - Software issues:
        * Word not sending the correct data to printer
        * Windows trying to print in letter format
    - Coffee spilled inside printer
- Broke the office record for number of kitten pictures in cubicle
- Learned how to make more amazing coffee on a new machine

2010–2011 **KickAssCompany2**   Malmö, Sweden
Keywords: C, Python, bash, GNU/Linux, Make
TCP/IP surveillance cameras at which I worked as software developer. They have their own GNU/Linux system running on their cameras and I was working in the feature team. One of the main component of their platform is the GStreamer library which is a multimedia framework written in C. My main function was as maintainer on several of the components on their GNU/Linux platform. I also worked on the build-system which was made up of different script languages such as perl, python and bash.

2008-2009 **Buy More**   Burbank, California
Computer Repair Specialist
Worked in the Nerd Herd and helped to solve computer problems by asking customers to turn their computers off and on again.

education

| 2011–2012 | **Masters** of Commerce | The University of California, Berkeley |

Money Is The Root Of All Evil – Or Is It?

This thesis explored the idea that money has been the cause of untold anguish and suffering in the world. I found that it has, in fact, not.

| 2007–2008 | **Bachelor** of Business Studies | The University of California, Berkeley |

Specialization in Commerce
